Uniform application

2 frames: cantilever or trestle

Macchina velatrice completamente automatica nella regolazione del peso, costruita interamente in acciaio, per l'applicazione di smalti micrograniglie, cristalline. *Waterfall system with fully automatic weight regulation constructed entirely of AISI 304 stainless steel, excellent for engobes, glazes, glazes with microgrits and vetrified transparent frits application.*

Control-weight: controlla il flusso di portata e tramite regolatore inverter mantiene costante i parametri di peso impostati.

Control-weight: control panel to control the flow capacity and to keep the pre-set weight parameter constant by inverter.

Model	Max. fired size	Max. green size
850	600 mm	660 mm
1050	800 mm	880 mm
1200	900 mm	980
1500	1200 mm	1340
2150	1800 mm	1850
